studying world religions is an intellectual challenge coupled with an emotional endeavor to grow in sensitivity to the mystery of human

nature teaching world religions requires an openness to new languages cultures and beliefs by exploring the history of dialogue students can begin to appreciate the unique contributions of each tradition without forgoing their own primary source readings in world religions introduces your students to foundational texts of many of the world s main religions this leader s guide brings you the expertise of a veteran world religions teacher who not only provides helpful insight into the readings but also lends the wisdom gained from years of guiding young people in deepening their understanding of different faith traditions the leader s guide provides you with continuity and variety each chapter includes these elements summaries of the primary source readings from the student book an activity to help you guide students through each of the readings additional activities to further explore the issues suggestions for prayer related to the chapter topic action ideas related to the chapter topic

through an enlightening collection of academic articles foundational readings in environmental policy deepens and broadens students knowledge of the root cause of environmental policy and also provides suggested solutions to mitigate environmental impacts students are encouraged to better understand the complex nature of environmental issues today s environmental policy approaches and technologies and approaches that can create a more sustainable future the anthology is organized into the units unit i covers the fundamental principles of environmental policy and politics the readings explore the main features of environmental policy how it differs from public policy how policy is formed the key actors involved in implementing policies and more unit ii outlines environmental issues beyond geographic boundaries and which are not limited to the natural ecological realm the readings focus on climate change energy and biodiversity loss the final unit discusses emerging environmental issues and policy approaches including environmental inequality waste management sustainable businesses issues related to energy access in developing countries and strategies for the future filling a gap in the current literature foundational readings in environmental policy is an ideal resource for courses and programs in environmental policy

this resource offers processes and concrete tools to help school districts confront disproportionate outcomes of special education placement and exclusionary discipline for students of color

the issue of inequality in wealth and income has gained prominence in the political discussion not at least because inequality had not been expected to increase in countries wealthy already how to gauge that process using which indicators can economics suffice to explain the mechanics of this development for if it were due to economics only how to explain the still marked differences in oecd countries with some such as prominently the us or the uk having become very unequal while the rise in inequality had been much

more dampened in other oecd countries such as the scandinavian ones or in austria what then are the driving forces behind the process and what the causes for the widely different outcomes in oecd countries in putting these questions one opens a vast field for inquiry herwig meyer has not shied from attempting such an overview in a trans disciplinary approach and with the use of a vast array of resources he has done so successfully thus providing a kind of basic easily accessible reader on the subject dozent dr thomas nowotny vienna university

this volume brings together a series of discussions by scholars from a range of disciplinary trans regional and epistemic perspectives that came out of the berlin based co2libri networking initiative with longstanding collaborative partners based in the global south co2libri stands for conceptual collaboration living borderless research interaction as an interdisciplinary and transregional oriented initiative co2libri envisages a multicentric perspective that integrates neglected positions of southern theory and praxis into the heart of academic conversations co2libri s collaborative endeavor builds on long standing active connections with partners in africa south and southeast asia and the middle east instead of setting an agenda from the north it proposes to figure out ways forward through collaborative engagement building on relationships of mutual trust using formats that facilitate substantial and open ended discussion we are re thinking theory and method academic practices and research ethics while keeping material inequalities in view contributors to this edited volume are working toward the implementation of various innovative activities research perspectives and collaboration formats which all subscribe to the principle of dialogue on equal footing with scholars and activists based in divergent positionalities along and beyond the global north south divide in different ways the authors work toward the goal of producing more adequate and more sensitive critical knowledge and applying a fresh view to approach methods and ethical standards overall the volume works sometimes in exploratory ways with alternative frames of reference while it presents diverse theorizations of lived experiences

urban ecology is a rapidly growing field of academic and practical significance urban ecologists have published several conference proceedings and regularly contribute to the ecological architectural planning and geography literature however important papers in the field that set the foundation for the discipline and illustrate modern approaches from a variety of perspectives and regions of the world have not been collected in a single accessible book foundations of urban ecology does this by reprinting important european and american publications filling gaps in the published literature with a few targeted original works and translating key works originally published in german this edited volume will provide students and professionals with a rich background in all facets of urban ecology the editors emphasize the drivers patterns processes and effects of human settlement the papers they synthesize provide readers with a broad understanding of the local and global aspects of settlement through traditional natural and social science lenses

this interdisciplinary vision gives the reader a comprehensive view of the urban ecosystem by introducing drivers patterns processes and effects of human settlements and the relationships between humans and other animals plants ecosystem processes and abiotic conditions the reader learns how human institutions health and preferences influence and are influenced by the others members of their shared urban ecosystem

this is a comprehensive collection of articles on the major topics usually covered in an introductory american government course there are two in a few cases four articles on each topic and they take different or opposing points of view the authors have a concise introduction to each pair of articles

at the heart of any discussion about the future of libraries is the future of librarians and how well our instructional programs especially the master of library science mls degree prepare them for their careers this book continues the critical conversations around preparing future librarians

this edited volume of works encourages students to think about contemporary post modern ideas regarding multiculturalism and multicultural education the wide range of selections will inspire critical classroom discussions

includes entries for maps and atlases

film is simply too big and too influential a mass medium to ignore surprisingly enough although film is already a staple in many composition classrooms little has been written about its uses leaving many of us uncertain of how to proceed cinema to graphy takes you inside some of those classrooms offering new ideas on integrating film and other visual media with student writing ellen bishop divides the book into four sections based on where the authors locate themselves in the field of film and writing these essays if anything resist easy categorization all of them begin to unfold both theoretical and practical questions that arise from the conversation about film and writing cultural studies and undergraduate students these instructors offer special insight into both course structures and materials and the methods through which they make use of them best of all they offer new strategies to help students become critical thinkers who can responsibly speak to and read their media saturated world and who can identify and work with the problems posed by language this anthology will be of great use to university and college teachers of all ranks especially graduate student teachers interested in integrating film into their composition classrooms

this reader is designed to supplement any core textbook in introduction to mass communication the goal of the reader is to help students think more critically about the media by drawing from a wide variety of sources and political and cultural viewpoints this collection is predicated on the fact that students learn about the media mainly through the media by reading or hearing about media in media publications or broadcasts these articles are drawn mostly from popular and alternative media and take a hard and critical look at the political and social forces that drive media decision making

in this volume researchers practitioners participants and scholars address the proliferation of methodologies ethical and disciplinary concerns and issues of equity and diversity such research raises from a wide variety of viewpoints acts of inquiry in qualitative research also presents a broad assortment of articles by authors from several academic disciplines who examine their own fields contribution to qualitative research in the past as well as future trends the book is divided into six sections reflecting different acts of inquiry in qualitative research habits of thought and work ethics and validity the relationships of the researcher and the participants data collection data analysis and interpretations the uses of research acts of inquiry is unique in bringing together a rich collection of theoretical arguments and case studies making it an invaluable resource for teaching learning and practicing qualitative research
